

Project Report on  
**JOB CARRIER GUIDANCE PORTAL**

SUBMITTED BY

**AKASH CHAKRABORTY**

Registration no. – 611-1111-0296-21

Roll no.- 213611-21-0019

A Major Project submitted for the partial fulfillment of the requirements for the degree of

**B.Sc.(Hons) in Computer Science**

*Supervised by -*

**Mr. UNMESH MONDAL**

**Mr. GOUTAM DAS**

**Mr. APURBA JYOTI ROY**

**Mrs. RIMPI SAHA**

Department of Computer Science

Bidhan Chandra College – Rishra, University of Calcutta

## ACKNOWLEDGEMENT

To construct this project report successfully, there is necessary a lot of help from different field and mind. We convey our deep gratitude to all those who gave guided and assisted us in completion of this project **JOB CARRIER GUIDANCE PORTAL**.

We express our gratitude and cordial thanks to our guide and teachers **Mr. Unmesh Mondal, Mr. Goutam Das, Mr. Apurba Jyoti Roy and Mrs. Rimpi Saha** for their valuable guidance, constructive comments, useful correction and suggestion during the preparation of this project. We are thankful to our teachers for their encouragement.

We extend our gratitude to the Govt. and Non-Govt. Institutions and agencies for supplying the data and information.

We wish to record our sincere thanks to our parents for their valuable suggestions and encouragement.

We are very thankful to our friends who have co-operated me to complete this project. Finally, we express our gratitude and our thanks are due to all those, who directly or indirectly helped us to complete this project.

---

Teacher's Signature

## **PROJECT INTRODUCTION**

It is very typical to establish a small-scale business with less resources to provide quality services. Now a days, students are too much familiar with online education system. But most of us are not sure about their future scopes that what is the better opportunities according to their studies. Few are very confident by their future plan but they can face problem when they go to know about their dream job in detail. Because, in maximum case, they are being unsatisfied by the less information provided by online links. Internet is still unable to give free preparation test and proper guidance those students as well as he also unable to provide previous year question paper for practice and a clear conceptualization about the following examination.

Our solution provides a proper counselling procedure to all student who are interested to examine himself/herself about their future plan. As well as we are providing a database of jobs, where from user can search any type of jobs either it is Govt. or Non-Govt. We also provide a proper guidance about the searched job by the user. And we try to offer a free of cost preparation test to all interested user with a bunch of previous year question papers of all Govt. and Non-Govt. jobs.

## MODULES

- Description: A module is a collection of source files and build settings that divide the project into discrete units of functionality. The project can have one or many modules, and one module can use another module as a dependency.

It is impossible to establish a good project in only one module. So, we have divided our project into four module which we have mentioned below. The four modules which have been used in our project that are –

1. Counselling Module
2. Job Search Module
3. Guidance Module
4. Preparation Module

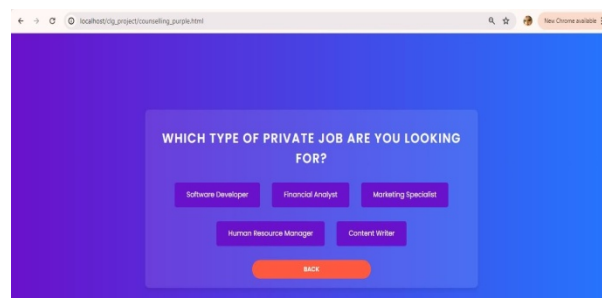

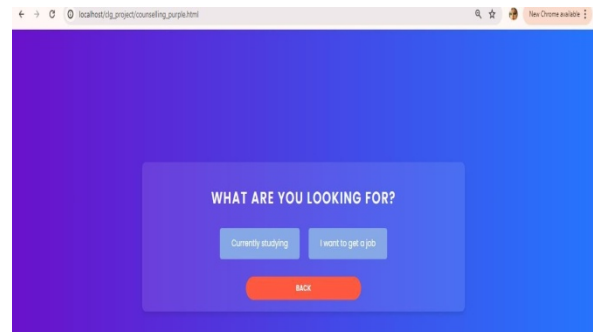

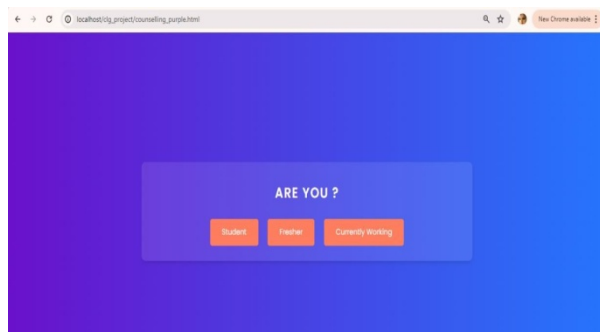

- ✓ In the counselling module, we have tried to give a counselling procedure to all users according to their requirements.
- ✓ In the Job Search Module, we have tried to give a searching facility to all users according to their present qualification.
- ✓ In the Guidance Module, we have tried to produce a proper guidance to all users which will be help all user to choose the correct path or take the correct decision about their future plan.
- ✓ In the Preparation Module, users can prepare themselves by previous year question paper of all individual examination.

## COUNSELLING MODULE

- Description :- Counselling means to give professional advice to someone on any matter. For example professional advice about career and career development is career counselling, professional advice on relationships is called relationship counselling, so on and so forth.

It is very important for a student or fresher to find the correct way that means which is better for their future. To counsel them in this situation, we establish a counselling module or section to help them in this part. For all users, either they are students, fresher or any employee, we have tried to counsel them by their own choice either it is private or govt. job. It is also notified that we have focused to counsel them according to their favorite post like software developer, teacher, civil servant or police etc.

## JOB SEARCH MODULE

- Description :- A job search website is an online platform designed to connect job seekers with potential employers. It serves as a digital marketplace where employers post job openings and job seekers search and apply for these opportunities.

In the Job Search Module, users can find their dream job according to their qualification. It is notified that, there is a separation of two type of jobs, private and government. Users can search government job by inputting their last qualification degree and chose a private job from the filter option.

# GUIDANCE MODULE

- Description :- guidance involves making an individual aware of his capabilities and skills. Guidance, as a process helps an individual to make the right decisions in various aspects of life, so that a balanced development of the individual can be facilitated. Guidance is considered an integral part of education.

In the guidance section, we have tried to produce a proper guideline to all users according to their own choice. It is notified that we have highlighted all individual section or types like railway, teaching, banking, human resource manager and content creator also.

# PREPARATION MODULE

- **Description :-** Practice on old exams - One of the most effective ways to prepare for exams is to practice taking past versions. This helps you get used to the format of the questions, and - if you time yourself - can also be good practice for making sure you spend the right amount of time on each section.

In the preparation module, we are offering short preparation test to all user for their better preparation. It is modified there is many type sample question in the preparation module like aptitude, programming, technical, G.K. etc.

### Online Aptitude Test

1. Find the greatest number that will divide 43, 91 and 153 so as to leave the same remainder in each case.

☐ 14  
☐ 7  
☒ 9  
☐ 13

2. Which of the following fractions is the largest?

☐ 7/13  
☐ 13/16  
☐ 21/434  
☐ 21/454  
☐ 23/480

3. The least perfect square, which is divisible by each of 21, 36 and 66 is:

☐ 213444  
☐ 214344  
☒ 214524  
☐ 231444

4. If 20% of a = b, then 15% of 20 is the same as

☐ 4% of a  
☐ 2% of a  
☐ 20% of a  
☐ None of these

5. If A = x% of y and B = y% of x, then which of the following is true?

☐ A is smaller than B  
☐ A is greater than B  
☐ Relationship between A and B cannot be determined  
☐ None of these

6. 3 pumps, working 8 hours a day, can empty a tank in 2 days. How many hours a day must 4 pumps work to empty the tank in 1 day?

☐ 9  
☐ 10  
☐ 11  
☐ 12

### Online C Programming Test

1. The keyword used to transfer control from a function back to the calling function is

☐ switch  
☐ goto  
☒ go back  
☐ return

2. Which of the following statements are correct about an array?

1. The array int num[20], can store 20 elements.  
2. The expression num[1] designates the very first element in the array.  
3. It is necessary to initialize the array at the time of declaration.  
4. The declaration num[5][2] is allowed if 5\*2 is a macro.

☐ 1  
☒ 2  
☐ 3  
☐ 4

3. The library function used to find the last occurrence of a character in a string is:

☐ strstr()  
☒ laststr()  
☐ strlwr()  
☐ strstr()

4. Bit fields CANNOT be used in union.

☒ Only in specific compilers  
☐ true  
☐ false  
☐ none

5. The first argument to be supplied at command-line must always be count of total arguments.

☐ True  
☒ False  
☐ Maybe  
☐ none

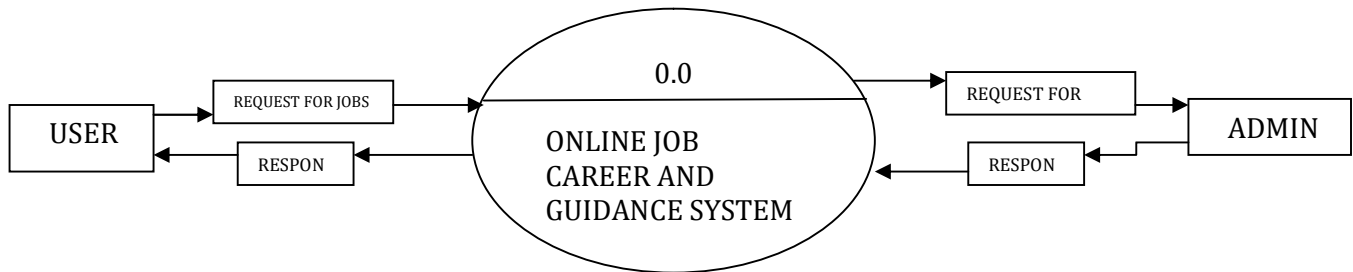

6. Which header file should you include, if you are going to develop a function, which can accept variable number of arguments?

☐ vararg.h  
☐ stdio.h  
☒ stdlib.h  
☐ string.h

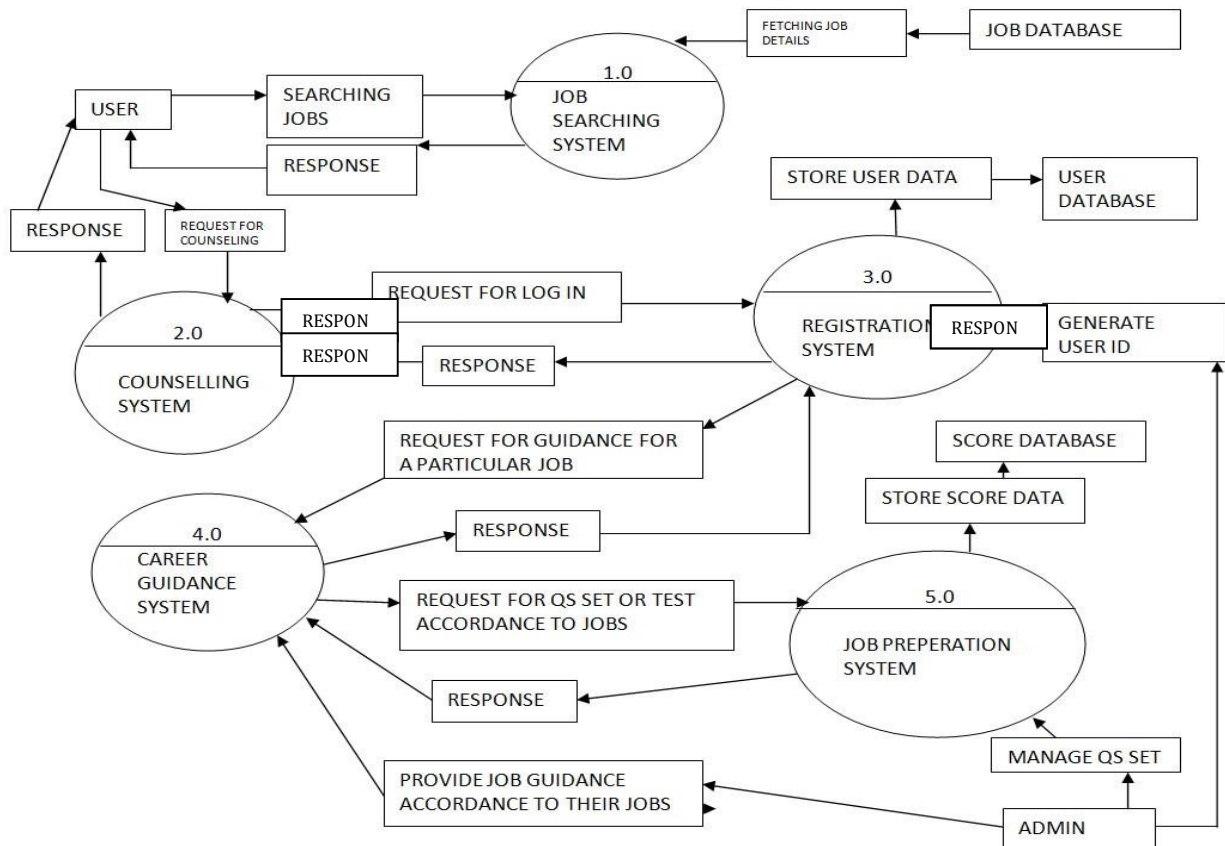

# METHODOLOGY

## DFD (DATA FLOW DIAGRAM) DIAGRAM:

- LEVEL-0 DFD(CONTEXT DIAGRAM):**

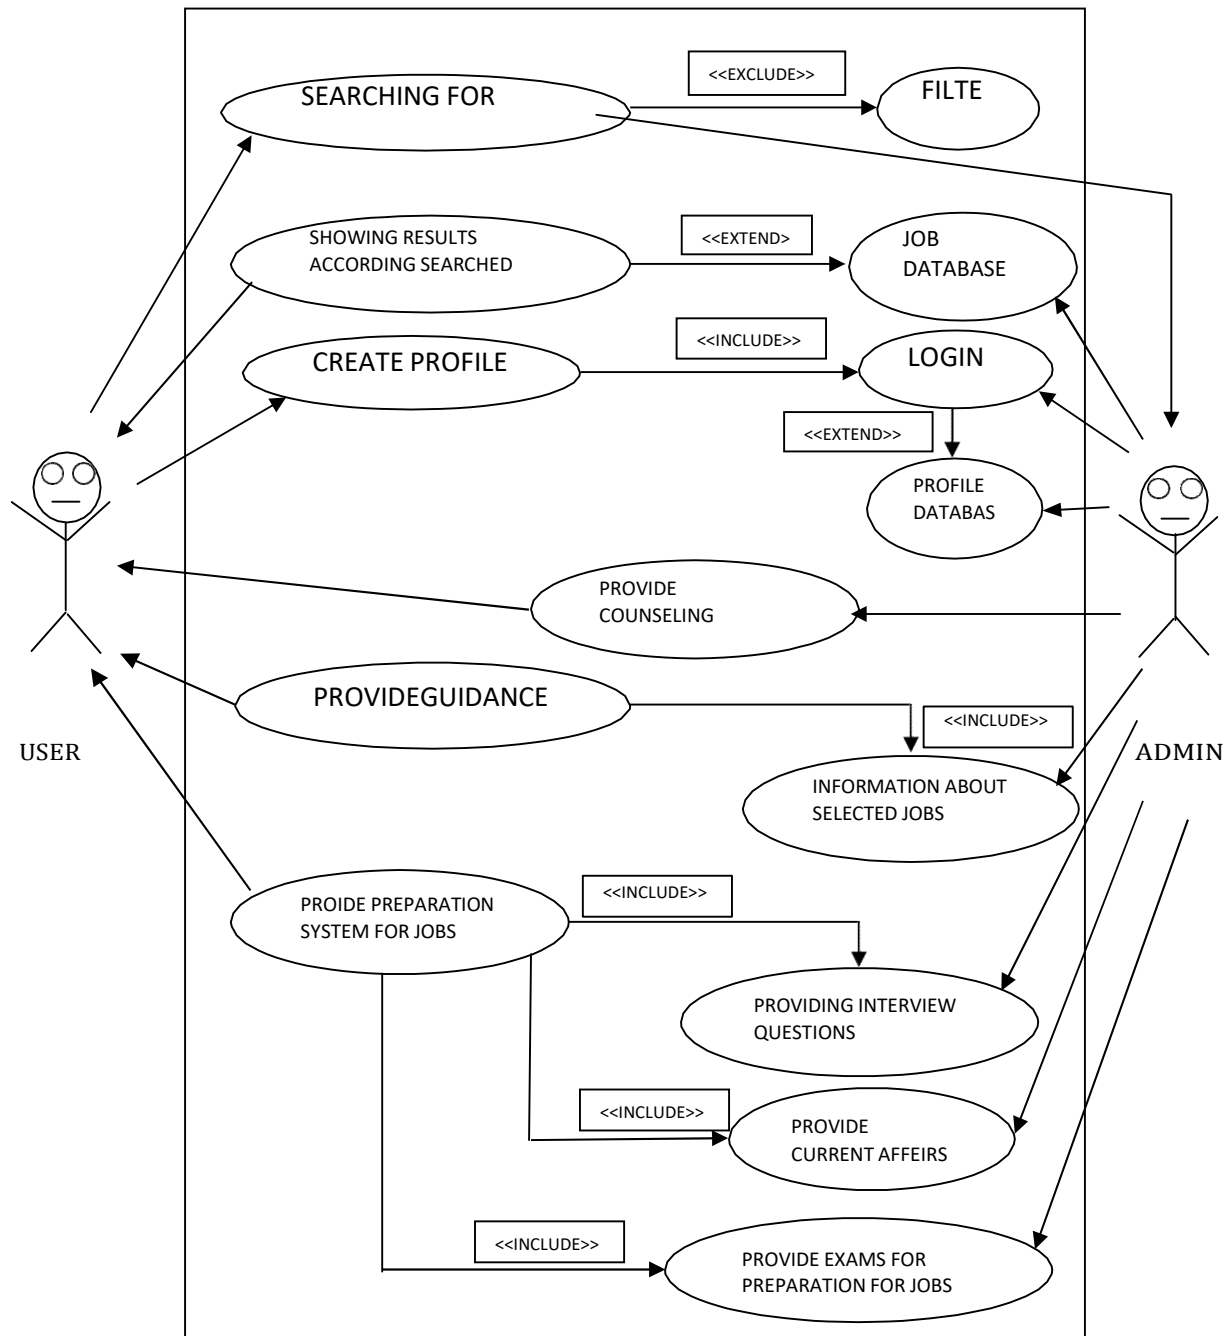

- LEVEL-1 DFD:**

## • USED CASE DIAGRAM:

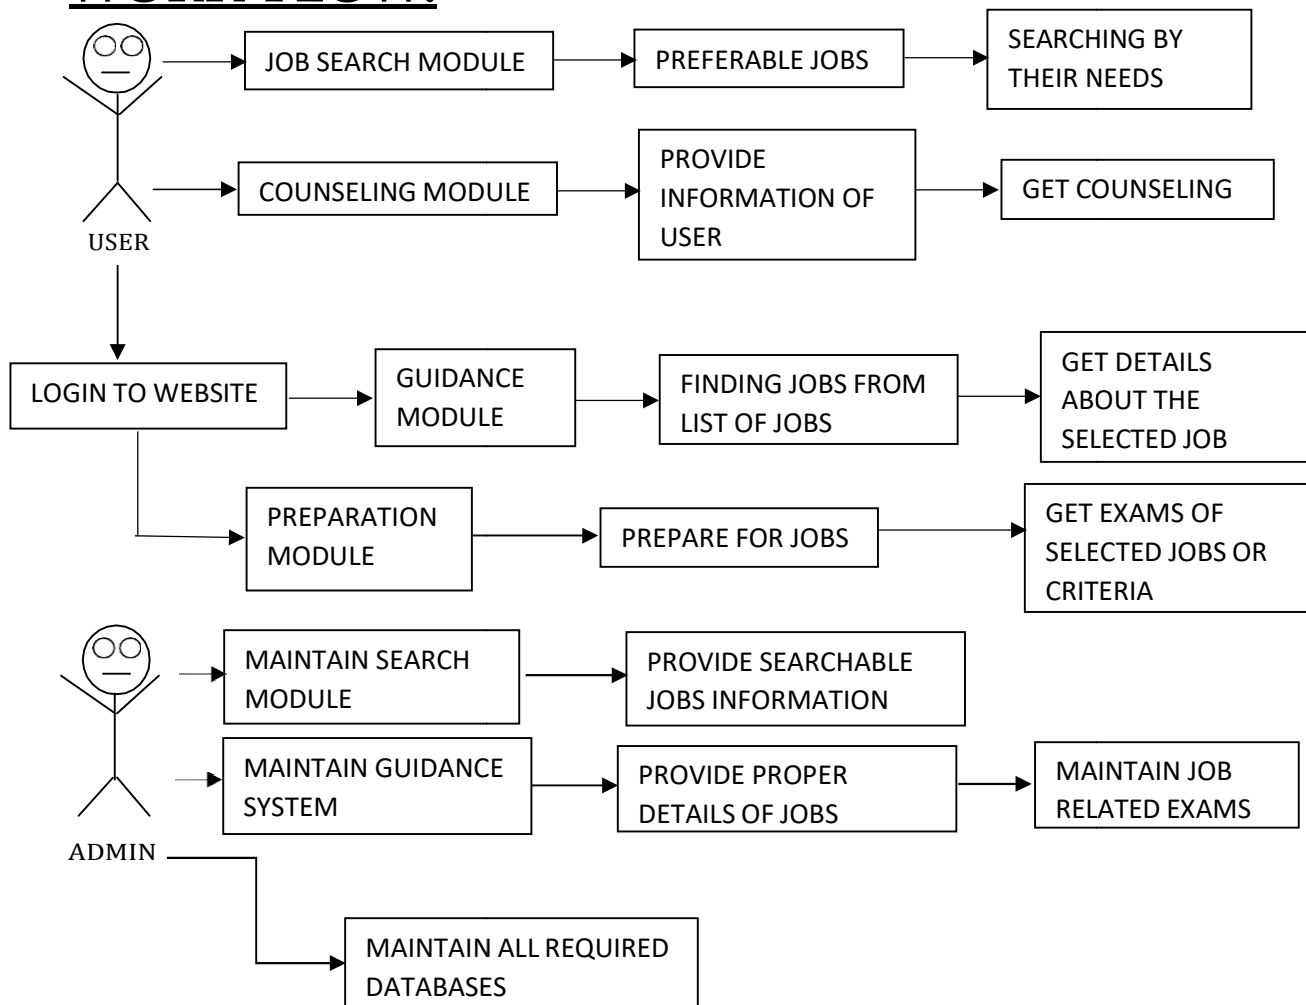

## WORK-FLOW DIAGRAM:-

The main objectives of this project are to provide best searching procedure to find best jobs, provide best guidance that can help user to achieve their dream job, provide best preparation system that can help user to prepare for jobs and also provide a great counseling session that can help user to find their actual needs. This project is a great solution for those users who trying to get some jobs but can't find their best jobs, this project help them to do so.

In this project user can create their account to get guidance about any jobs and also prepare for any jobs and also find the best jobs by their needs.

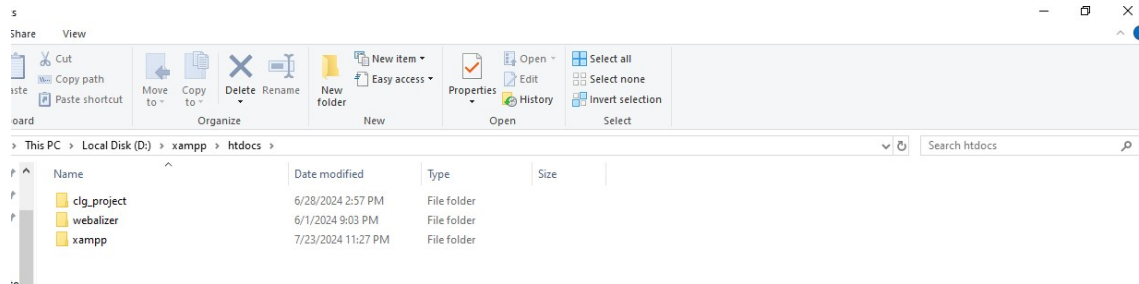

### WORK-FLOW:

# IMPLEMENTATION

Firstly we have to make sure that XAMPP is installed in our system which contains my SQL and Apache then we should process the next step. After that we have to go to the xampp folder in D drive of our computer and after that we have to go to the htdocs sub folder then we can start coding to build the website.

We have to create front end part as user interface. Interfaces are written in HTML ,CSS, Tailwind CSS, JavaScript and jQuery . After the interface is created then we have to serve them via backend these things should be done using PHP and my SQL via XAMPP.

- Homepage:

The homepage of our career guidance website welcomes users with essential navigation options for a seamless experience. It features sections such as Home, Services, Job, Counselling, About Us, Contact Us. The Home section provides a brief introduction to our platform, highlighting its purpose and benefits. The main highlighted features are shown in the below picture, The specific part of the source code of this page which contains the main features & oprtions:

```

<!DOCTYPE html>

# REQUIREMENTS

All requirements have been mentioned here to establish our project.

- Hardware / Software interface
  - This section lists the minimum hardware and software requirements needed to run the system efficiently.
  
- Hardware interface :
  - Intel i3 or higher processor
  - 5GB of free hard-drive space.
  - 4GB or higher RAM.
  
- Software interface :
  - Operating system : windows (7 or above).
  - Database : MySQL
  - Linker : PHP
  - Software : Node JS Run time environment.
  - Packages & Libraries : HTML, CSS, Tailwind CSS, JavaScript, JQuery.

# **DISCUSSIONS**

## **1. ADVANTAGES:**

- Provide up-to-date information on job market trends, including in-demand skills, industry growth, and regional employment statistics that can help user to updated every time.
- Aggregate job listings from various sources, allowing users to search for opportunities based on location, industry, and job title.
- Users can take quizzes and assessments to identify their interests and strengths, helping them understand which career paths may suit them best.

## **2. DIS-ADVANTAGES:**

Users may face technical difficulties such as slow loading times, glitches, or compatibility issues, which can hinder the guidance process.

## **3. FUTURE SCOPES:**

- In the future, we plan to enhance our website by incorporating a one-on-one Q&A conversation feature with industry experts directly on our preparation page. This addition will provide users with personalized insights and advice tailored to their career aspirations, further enriching their preparation experience.
- OTP can be generated when user sign up or sign in through mail.
- Giving users specific guidance page according to their requirements
